

KLOVE is the only radio station we listen to. We support KLOVE financially and prayerfully. Without KLOVE's positive motivational music we will have to turn off our radio all together.. because we don't believe in "todays" music...such garbage and the false messages it projects are worthless. If you do decide that KLOVE is not worth your FM translator spots we will have to fight!! We may be christians but we are not going to rest without a fight! Plus, more and more new christians are listening everyday! What a better way to live! This helps to build and maintain a safer, healthier, and loving community!! I would much rather have the "popular/secular" radio stations go down!! Love your neighbor as yourself.. if you are in turn nice to your neighbors wouldn't you like them to be nice back (of course you would)!! This is true if they love Jesus... and KLOVE brings that message.. and what a great refreshing change!!
